

lah Water Solutions

Does your lab have one of these systems?

We are offering LIMITED TIME SPECIAL PROMOTIONS when you trade-in your old unit for a new generation water Purification system

You will benefit from:

- Manual, Automatic, and Assisted dispensing functions from drop-by-drop to up to 2 L/min
- High-precision resistivity and faster, more precise Total Organic Carbon (TOC) monitoring
- Depending on system chosen, up to 4 points of delivery (PODs) can be connected to one water purification system, providing pressurized pure and/ or ultrapure water, customized to your exact lab work and applications

Receive a back up set of Milli-Q $^{\mbox{\scriptsize 8}}$ system cartridges at no additional charge with your purchase.

Purchase by September 30, 2020
